

Live the life you want.

The Virginia Association of Blind Students proudly welcomes you to the NFB 2022 State Convention!

October 28th-30th, 2022 at The Westin at Tysons Corner

VABS is a statewide organization of blind and visually impaired students that support one another academically, professionally, and socially. At the state convention, you will have the rare shot at engaging each of these areas in an action-packed agenda, including:

- Meet and network with professionals crushing it in your field of interest
- Immerse yourself in a Latin food, music, and dance celebration
- Conquer Vispero's Escape Room
- Learn new tips and tricks to confidently drive your screen reading technology at school
- Flex your mind and muscles in our self defense and fitness workshops
- Earn a little extra cash for school through one of our academic scholarships!
- Find out if you are eligible to take a part in our year-long student mentoring program

The convention promises to be a unique opportunity to explore your interests in a safe environment in the company of students and professionals who want to help you lead your own success. Don't take our word for it. Grab some friends and join us for a weekend of breaking barriers and shattering misconceptions of what it means to be blind.
